

Hypercom[®] Optimum T4220 Terminal

The Challenge

Independent businesses and specialized retailers want the features and benefits of an advanced point-of-sale (POS) terminal without the cost and complexity associated with many high-end systems. A growing business requires added value at the point of sale, but without sustaining unnecessary expense.

The Solution

The Hypercom[®] Optimum T4220 terminal combines the upgraded features merchants want into a reliable and cost-effective payment device. While maintaining affordability and simplicity, it delivers a level of functionality usually only found in higher priced terminals.

This affordable POS solution is designed to meet the needs of today and be ready for tomorrow's payment options. The Optimum T4220 terminal is configured to accept virtually every payment option, including all major credit (American Express[®], Visa[®], Discover[®], MasterCard[®]/Diners Club[®], and JCB[®]), signature and PIN debit and gift cards.

With peripheral equipment, the device allows a merchant to accept the latest in contactless payment options and to securely accept checks through TeleCheck[®] Electronic Check Acceptance[®] (ECA[®]) service. It can also accept electronic benefits transfer (EBT) transactions.

Here's How It Works

The Optimum T4220 terminal combines IP connectivity and dial back up with performance and security for faster, safer transactions and downloads in a budget conscious payment solution. Its advanced features include 24MB of total memory and an ARM9 processor. An integrated Payment Card Industry (PCI) PIN Entry Device (PED) approved PIN pad allows the acceptance of debit cards.

The Hypercom Optimum T4220 terminal is designed to be upgradeable as business needs, regulatory requirements or applications change. It also offers enhanced security features, such as account truncation on receipts.

Hypercom[®] Optimum T4220 Terminal

Industries Served

- Retailers
- Grocery Stores
- Automotive
- Restaurants
- Quick Service Restaurants
- Electronic Commerce
- Mail Order/Telephone Order

Help Your Business
